

## Best Price Execution Functionality

This functionality gives the user to avail the best price to execute based on the touch line in the market watch irrespective of the Exchange. This functionality is available for Equities, Equity Derivatives and Currency Derivatives. And members configured on both exchanges BSE and NSE.

The user needs to compulsorily add both the symbols of the same instrument of BSE and NSE respectively in the Market Watch.

**Ctrl + F1 key for buy and Ctrl + F2 key for sell to be invoked for the Best Price to get populated in the Order entry Form.**

If the user invokes Ctrl + F1 (Best Price Buy), the exchange name will be populated with the exchange where the best sell price is available.

If the user invokes ctrl + F2 (best price sell), the exchange name will be populated with exchange where the best buy price is available.

Complete order quantity will be routed of the exchange where the Best Price is available. Quantity available at the best price shall be executed and the balance quantity will remain as pending.

User can also manually change the order entry fields like Exchange, Quantity, and Price. In case you do not see this feature Pl. update the version from Tools>update

**NOTE: Normal Order F1 and F2 continued to function without the best price execution feature.**

The screenshot displays the MoneyMaker Client 2.0.0.0 interface for GOLDMINE STOCKS PVT LTD. The main window shows a market watch table for AXISBANK with columns for Symbol, S..., BuyQty, BuyPrice, SellPrice, SellQty, LastTra..., Per..., High, and Low. Two rows are visible: one for 'A' (BuyQty: 5, BuyPrice: 757.50, SellPrice: 757.80, SellQty: 1) and one for 'EQ' (BuyQty: 363, BuyPrice: 757.85, SellPrice: 757.90, SellQty: 304). Below the market watch is a 'SELL ORDER ENTRY' form with a table of order details and a form for entering order parameters like Exch, Code, Instrument, Symbol, Series, Strike, Opt, P%, Qty, Price, Pro/Cl, and Client. The form is currently populated with NseCm: 5900, Instrument: EQUITIES, Symbol: AXISBANK, Series: EQ, Qty: 1, Price: 757.70. The interface also includes an Index window showing Nifty 50, SENSEX, and Nifty Bank values, and a Blips View window.
